EDMONDS LEADS REPUBLICAN PACK IN DISTRICT 2 CONGRESSIONAL RACE

MORRIS, OK – Daniel Edmonds, Republican candidate for Oklahoma’s Second Congressional District offers the best chance for Republicans to defeat current Democrat Congressman Dan Boren, according to Public Policy Polling, a national political polling firm.

Results of the recently released poll show Daniel Edmonds as the leading Republican candidate and the best candidate to run against incumbent Boren. Edmonds received a significantly higher vote percentage than any of the other Republican candidates. He also kept Boren’s vote percentage substantially under 50% which was the lowest in the poll. Daniel Edmonds is leading the way with the highest name recognition of the Republican candidates as well.

“Our message of liberty, limited government, respect for the Constitution, respect for life, and personal responsibility resonates with individuals who care about our country, our heritage, and our legacy,” Edmonds said. “We are excited about the support our campaign is receiving as I believe I have the education and background to best represent District 2 Oklahomans in Washington.”

“The Republican primary election will be held July 27 and we are working to meet with as many constituents as possible. We are pleased with the results at this point in the campaign, but winning the primary in July and ultimately the general election in the voting booth is our goal. Over the next few months, we will be working hard to tell the Second District who I am and where I stand on the issues pertinent to our district and our country.”
